

## CONVOCATORIA 2023 – PROYECTOS DE GENERACIÓN DE CONOCIMIENTO

### MODELO PARA EL APARTADO “RESUMEN DEL PLAN DE GESTIÓN DE DATOS PREVISTO”

#### ***Coordinated projects***

The URL will be responsible for coordinating the development of the project's Data Management Plan, ensuring that data management complies with FAIR principles, using the "[CORa eiNa DMP](#)" tool.

The data [indicate if collected or generated] under the project will be [indicate data type/formats] and will be stored on the centre's server with access restricted to members of the research team. The person responsible for the data and access to it will be the PI of the project.

Regarding the deposit, dissemination and preservation of research data, this will be done in the trusted repository [CORa RDR](#), in which the [Ramon Llull University](#) has an instance for open access dissemination of research data following the FAIR principles and considering, if appropriate, ethical and legal aspects. If necessary, personal data that cannot be disseminated in open access will be anonymized and restricted.

#### ***Individual projects***

The research team will be responsible for developing the project's Data Management Plan, ensuring that data management complies with FAIR principles, using the "[CORa eiNa DMP](#)" tool.

The data [indicate if collected or generated] in the framework of the project will be [indicate data type/formats] and will be stored on the centre's server with access restricted to members of the research team. The person responsible for the data and access to it will be the PI of the project.

Regarding the deposit, dissemination and preservation of research data, this will be done in the trusted repository [CORa RDR](#), in which the [Ramon Llull University](#) has an instance for open access dissemination of research data following the FAIR principles and considering, if appropriate, ethical and legal aspects. If necessary, personal data that cannot be disseminated in open access will be anonymized and restricted.

#### Note:

*In the case where data are provided by another institution and are not collected or generated by the research conducted, indicate in the second paragraph to whom the data belong.*
